- English (Fluent)
- German (Beginner)

ABOUT ME

As a front-end developer, I have a strong foundation in HTML5, CSS3, and JavaScript, and I am proficient in various modern frameworks and libraries such as React.js, Next.js, and Tailwind CSS. I also have experience using responsive design techniques, which I have applied in my projects..

PROJCETS

Portfolio
I created my portfolio using Next.js, Tailwind CSS, and Framer Motion.

Website: NIA Association
Using React, Vite, Tailwind CSS, and Tailwind UI, I developed a responsive website for the Association NIA, which includes a landing page and a page for the chatbot.
- [Link](#)
- [Source code](#)

Website: Movies Recommendations
I created a responsive website for movie recommendations using React, Vite, Tailwind CSS, and the TMDB API to fetch data.
